Aurora IDAM

IDAM Service Pricing

Aurora from Core is a fully featured enterprise IDAM and ILM solution. Please see accompanying service description for further details.

Aurora Cloud / Hybrid

Aurora Cloud is our purpose built offering for customers who have fully migrated from on premises AD and centred on Azure AD / Entra as their central Identity platform, and adds all of the end to end automation features of Aurora to provide a fully featured, SLA backed service alternative to the standard Microsoft Entra ID Governance offerings.

Important Notes

- Pricing per user per month unless otherwise specified.
- All pricing is net of VAT at the prevailing rate.
- All Aurora services are based on Active Directory / Azure Active Directory or Entra ID as an existing prerequisite service
- Please reference the Service Description document for details of the features of each of the Aurora Services
- Customers with 5,000 users or less will be priced on application
- All pricing assumes that the customer is hosting Aurora components in their existing environment. For Core hosted options, please contact us for a quote
- Published Aurora Pricing is for business hours support only, please contact us for a quote for 24x7x365 support coverage
- There will be an onboarding project required to implement Aurora in your existing environment, this will be priced using our rate card and will vary depending on the complexity of the customers identity estate.
- Early termination fees will apply for any cancellations made prior to the end of the minimum contract period. Core can provide estimates for these at the quotation stage.
