

IBM Technology

A glowing blue cube is positioned in the center of the image. The cube's faces are covered in a grid of small, glowing blue squares. Two of the visible faces of the cube feature a glowing blue cloud icon. The cube is resting on a complex, dark circuit board with various components and traces. The background is a dark, textured surface with a grid-like pattern.

Service Description

IBM Cloud Pak for Data as a Service

IBM Cloud Pak for Data as a Service is an integrated platform comprising a suite of data and AI Cloud Services. IBM Cloud Pak for Data as a Service gives the Client the ability to add and remove, or combine individual services based on the Client's needs and to realize specific use cases.

IBM Cloud Pak for Data as a Service is not an individual service itself, but a curated collection of individual Cloud Services. Client's use of individual Cloud Services available under IBM Cloud Pak for Data as a Service is subject to the individual Service Descriptions for each applicable Cloud Service offering, in addition to the IBM Cloud (Public Cloud) Service Description, each available at <https://ibm.com/terms/>.

All pricing, charge metrics, and billing for Cloud Pak for Data as a Service are done via the individual Cloud Services. The Client may purchase a Cloud Pak for Data as a Service subscription of fixed quantities in local currencies to use toward purchasing individual Cloud Services, or may purchase each Cloud Service individually using a pay-as-you-go model.
