IBM offers services across the spectrum of asset information

High Level Service Offerings

- Strategic advisory consulting on EAM and GIS software selection, Asset Management policies, strategies and roadmaps.
- Implementation services for EAM solutions particularly IBM Maximo and SAP, including mobile work force management, scheduling and predictive maintenance.
- Implementation of GIS solutions.
- Integrated solutions to back-office systems for procurement, finance and inventory management.
- Linked up end to end solutions covering the whole asset lifecycle, from capital delivery project initiation through to asset decommissioning.
- Solution Tailoring Workshops.
- All work in line with latest asset management standards including ISO 55000.

Co-creation: Solution Tailoring Workshop

Using enterprise design thinking to gain a clear, shared understanding of your asset management needs to identify pain points and solutions to address them.

Drive alignment & excitement

Engagement model
