Plus plan instances can't be downgraded to lower-tier plans.

IBM Cloud sometimes makes changes to offerings, included but not limited to: changing offering names, adding new offerings, removing existing offerings, adding or removing offering capabilities, changing costs per unit, changing units used to measure cost.

For further, updated information regarding all offerings, plus support and guidance on application running costs, contact your IBM representative or follow the link: <https://cloud.ibm.com/>

IBM Cloud provides a detailed cost estimator, and a down-to-the-penny cost calculator to help you plan for charges. You can check the actual cost after you build your apps through the IBM Cloud Dashboard. Where costs differ between this document and the IBM Cloud cost estimator tools, the tools should be considered to provide the correct price.

To calculate the cost of running an application on IBM Cloud, follow the link: <https://cloud.ibm.com/estimator>

Other billing options available including on-premise and subscription.

IBM has a strategic MoU with Crown Commercial Services (CCS) which is applicable to all Public Sector Customers buying via G-Cloud. This provides agreed baseline levels of discounts and details higher levels of discounts for larger volumes or greater durations of contract. The IBM pages describing this are at https://ibm.biz/ccs_mou. Public Sector clients can request a full copy of the IBM MOU from CCS by sending an email to info@crownccommercial.gov.uk

The pricing in this G-Cloud Offering takes account of the MOU baseline discounts. As IBM's portfolio is somewhat complex and there are several factors that affect the pricing; if your requirements are for more than just one license for a month, we would suggest that you contact us directly to ask us to provide you with pricing with the correct levels of discount for the term and volumes that you require. The email address for G-Cloud related enquiries is ukcat@uk.ibm.com. Please ensure that you indicate which G-Cloud Offering(s) you are requesting details for.
