

IBM Cloud LinuxOne

Pricing Document

Pricing Document

1.0 IBM Cloud Portal

IBM Cloud sometimes makes changes to offerings, included but not limited to: changing offering names, adding new offerings, removing existing offerings, adding or removing offering capabilities, changing costs per unit, changing units used to measure cost.

For further, updated information regarding all offerings, plus support and guidance on application running costs, contact your IBM representative or follow the link: <https://cloud.ibm.com/>

IBM Cloud provides a detailed cost estimator, and a down-to-the-penny cost calculator to help you plan for charges. You can check the actual cost after you build your apps through the IBM Cloud Dashboard. Where costs differ between this document and the IBM Cloud cost estimator tools, the tools should be considered to provide the correct price.

To calculate the cost of running an application on IBM Cloud, follow the link: <https://cloud.ibm.com/estimator>

*(**Please note:** these estimated prices will not include the 18% discount that are available to all UK Public Sector organisations – the prices in this document do include the 18% discount from list price.)*

There are the following billing options:

- **Pay-As-You-Go:** charged based on your use of provisioned Cloud compute and services
- **Subscription:** discounts are available based on a minimum monthly spending commitment and length of contract

1.1 Volume Discounts

Available subject to sizing and Statement of Work

1.2 Combination Discounts

The list prices provided below are discounted in accordance with the discount and terms agreed in the Memorandum of Understanding signed with Crown Commercial Service. This discount is a government wide discount calculated in January and July of each year and will increase from time to time depending upon the volume of Government purchases from IBM Cloud.

Please contact your IBM representative for further information on the current prevailing discount

1.3 Education Pricing

Available subject to sizing and Statement of Work.

1.4 Unit Based Pricing

The following table outlines a sample selection of HPC Clusters located in an IBM London Cloud Centre to support cloud bursting and/or adopt right sizing use cases.

Small Configuration Example		
Compute	1vCPUs, 4 GiB RAM, 2 Gbps	£0.07 /hr
Image	IBM z/OS 3.1 for Dev and Test (s390x)	£1.69 /hr
Boot	245 GB	£0.02 /hr
Network	Provided interface	
	Subtotal	£1,296.89 MRC
	Sustained usage discount	-£125.53
	Total estimated cost/mo	£1,171.36 MRC
Large Configuration Example		
Compute	16vCPUs, 32 GiB RAM, 32 Gbps	£0.86 /hr
Image	IBM z/OS 3.1 for Dev and Test (s390x)	£27.11 /hr
Boot	245 GB	£0.02 /hr
Network	Provided interface	
	Subtotal	£20,430.24 MRC
	Sustained usage discount	-£1,999.39
	Total estimated cost/mo	£18,430.86 MRC

1.5 Sector Pricing

Available subject to sizing and Statement of Work.

1.6 Resourced Based Pricing

Separate pricing will be available for operational resource, depending upon requirements.

IBM will convert the U.S. Dollars charges using an exchange rate as required by law or based upon a Bloomberg daily spot rate on the business day prior to the date IBM prepares your bill in your local currency.

The exchange rate used to calculate your monthly bill may differ over time. If the exchange rate fluctuates this will affect the £UKP price shown. The representative local currency amounts shown here were calculated using an exchange rate of **£GBP 0.7865 / \$USD**.

There may be additional charges for connectivity (PSN, ALI/RLI), Data Halls and Accreditation. Any such pricing for these dependent activities will be detailed during the initial project design phase.
