

NextGen Multivalue Database Transformation Service

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

NextGen Multivalue Database Transformation Service

Service Description

End-to-end consulting for organizations modernizing and managing complex multivalue database systems for scalable, data-intensive applications.

Features

- Comprehensive assessment of existing multivalue database environments
- Blueprinting and roadmap design for database modernization initiatives
- Vendor-agnostic migration strategy development and execution
- Integration of legacy multivalue databases with modern systems
- Performance optimization and capacity planning for mission-critical workloads
- Advanced security and compliance reviews tailored to industry needs
- Automated backup, recovery, and disaster resilience solutions
- Custom schema design and refactoring for evolving business logic
- User and data governance setup for auditability and control
- Onsite and remote knowledge transfer, documentation, and training

Benefits

- Transforms legacy data silos into agile, actionable business assets
- Accelerates application development through optimized data foundation
- Minimizes business risk during high-stakes migrations and upgrades
- Enhances database performance for real-time enterprise requirements
- Ensures regulatory alignment and data protection best practices
- Reduces total cost of ownership by leveraging resource efficiencies
- Enables seamless interoperability across hybrid IT architectures
- Empowers staff with up-to-date skills and clear documentation
- Improves business continuity with robust backup and recovery
- Supports digital transformation with scalable, future-ready data platforms

Constraints

Requires access to current database infrastructure and stakeholder collaboration; legacy platform compatibility may limit automation.
