

AI-Driven Application Enablement Platform Advisory

G Cloud 15 - LOT1A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

AI-Driven Application Enablement Platform Advisory

Service Description

Expert consulting to help enterprises adopt, integrate, and optimise AI software services on leading AI PaaS platforms for rapid innovation and scalable business outcomes.

Features

- Comprehensive assessment of current application landscape and AI readiness
- Strategic roadmap development for AI platform adoption and integration
- Evaluation and selection of best-fit AI software services and tools
- Design and deployment of scalable AI model workflows
- Integration of AI services with existing enterprise applications
- Data pipeline and orchestration strategy for seamless AI operations
- Best practice governance frameworks for AI lifecycle management
- Operationalisation guidance for AI model monitoring and retraining
- Security and compliance advisory for AI workloads on the cloud
- Change management and training for IT and business stakeholders

Benefits

- Accelerates time-to-value from enterprise AI initiatives
- Reduces risk through expert platform and service evaluation
- Scales AI capabilities without major infrastructure investment
- Integrates AI seamlessly into business-critical applications
- Establishes robust governance for sustainable innovation
- Improves data management for smarter AI outcomes
- Enhances security and compliance across AI deployments
- Drives adoption with structured change management and training
- Optimises operational costs through managed platform enablement
- Empowers business teams with actionable AI-powered insights

Constraints

Requires cloud platform access; dependent on data availability and client buy-in.
