

Access - Identity and Access Management

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Access - Identity and Access Management

Service Description

Weak identity controls lead to breaches, unauthorized access, and compliance failures. Microsoft 365 Identity and Access Management enforces secure authentication, conditional access, and role-based permissions—resolving identity risks, preventing credential misuse, and ensuring only the right people access the right resources, strengthening security without hindering productivity

Features

- Single sign-on for seamless access across all Microsoft services.
- Multi-factor authentication to strengthen user identity verification processes.
- Conditional access policies based on user, device, and location.
- Role-based access control for granular permission management.
- Passwordless authentication options for enhanced security and user convenience.
- Identity protection with risk-based adaptive access decisions.
- Centralized identity lifecycle management for users and administrators.
- Integration with on-premises Active Directory for hybrid environments.
- Detailed audit logs for compliance and security investigations.
- Automated access reviews to maintain least-privilege principles.

Benefits

- Improves security by enforcing strong authentication across all users.
- Reduces risk of unauthorized access to sensitive corporate resources.
- Simplifies user experience with single sign-on for multiple apps.
- Supports compliance through detailed audit trails and access reporting.
- Minimizes credential theft with passwordless and adaptive authentication options.
- Enhances productivity by streamlining secure access for remote workers.
- Provides granular control with role-based permissions and policies.
- Integrates seamlessly with hybrid environments for consistent identity management.

- Strengthens governance with regular access reviews and risk-based controls.
- Automates identity lifecycle processes to reduce administrative overhead.
