

Insightful BI Transformation Accelerator

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Insightful BI Transformation Accelerator

Service Description

Strategic consulting for organizations seeking to unlock value from business intelligence. We design, implement, and optimize analytics platforms for informed decision-making at scale.

Features

- Comprehensive assessment of BI strategy, architecture, and readiness
- Tailored roadmap for BI platform deployment and modernization
- Selection and integration of best-fit analytics and BI tools
- Design and implementation of robust data models and ETL processes
- Creation of interactive, executive-ready dashboards and reports
- Automated data governance and compliance frameworks
- Advanced user training in BI tools and analytics best practices
- KPI alignment workshops with key business stakeholders
- Performance tuning for rapid, reliable analytics delivery
- Ongoing support, enhancement, and value realization reviews

Benefits

- Accelerated time-to-insight for critical business decisions
- Unified, trusted view of enterprise data assets
- Improved forecasting and scenario modeling accuracy
- Empowered teams with self-service analytics capabilities
- Enhanced executive visibility with real-time dashboards
- Reduced operational risk through strong data governance
- Lower total cost of ownership for analytics solutions
- Optimized BI investments aligned to business priorities
- Increased adoption through expert-led enablement sessions
- Continuous value through proactive performance reviews

Constraints

Requires client data access, stakeholder availability, and modern IT infrastructure for BI deployment.
