

Cloud Security Resilience Advisory

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Cloud Security Resilience Advisory

Service Description

Expert consulting for organisations seeking robust security in their cloud environments, delivering tailored strategies, assessments, and implementation for comprehensive protection.

Features

- Comprehensive cloud security posture assessment and risk analysis
- Threat detection and response planning for cloud infrastructures
- Identity and access management review and optimisation
- Design of secure cloud architecture and configuration policies
- Implementation guidance for advanced cloud security controls
- Security compliance mapping and regulatory alignment support
- Vulnerability scanning and remediation recommendations
- Incident response readiness evaluation and playbook creation
- Interactive stakeholder workshops to build security awareness
- Actionable reporting with executive and technical insights

Benefits

- Mitigates business risk from evolving cloud security threats
- Strengthens compliance with industry and data regulations
- Accelerates secure cloud adoption and ongoing transformation
- Enhances confidence in cloud operational resilience
- Improves incident detection and response capabilities
- Reduces potential for costly breaches or downtime
- Builds a proactive security posture across cloud assets
- Optimises investment in cloud security technologies
- Empowers stakeholders with practical security knowledge
- Delivers clear, prioritised actions for continual improvement

Constraints

Requires appropriate cloud platform access and stakeholder engagement. Advisory only; implementation optional.
