

AWS AI Envisioning and Realisation Service

G Cloud 15 - LOT1A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

AWS AI Envisioning and Realisation Service

Service Description

Transform ideas into AI-powered solutions on AWS – from vision to realisation. Insights AWS AI Envisioning and Realisation is a comprehensive service designed to help organisations conceptualise, design, and implement AI-driven solutions within the AWS ecosystem.

Features

- Collaborative workshops to define AI vision and strategic objectives
- Identification of high-impact AI use cases within the organization
- Assessment of data maturity and technology readiness for AI
- Creation of tailored AI roadmap aligned with business priorities
- Selection of appropriate Azure AI/ML services and tools.
- Development of proof-of-concept models and prototypes for validation
- Requirements and solution design
- Scalable, secure, robust AI solutions using Azure best practices
- Integration of AI solutions with existing business processes and IT
- Support for successful adoption

Benefits

- Accelerates AI deployment and innovation within the Azure ecosystem
- Reduced implementation risk through expert guidance and best practices
- Provide a clear, actionable plan for AI transformation
- Improve operational efficiency and decision-making capabilities for clients
- Deliver measurable value aligned with strategic business objectives
- Enable rapid prototyping and validation of AI solution feasibility
- Partner to support in adopting AI technologies
- Ensure scalable, secure, and robust AI solution deployment
- Facilitate seamless integration with existing IT and business processes
