1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Service Offering

Service Description

Insight's Azure Enterprise Architecture Review Service is designed to support organisations with reviewing their Enterprise-Scale Azure environment to ensure it follows best practices.

The assessment service is aligned to the Azure Cloud Adoption & Well-Architected Frameworks – it provides an actionable and costed remediation plan for optimising an Enterprise Azure environment.

Service Overview

Insight's Enterprise Architecture Service is one of Insight's Optimisation Services designed to help customers to review their large complex Azure environment and related processes.

The service will support organisations with ensuring that Azure best practices are followed. It is a comprehensive service which builds upon the Insight's Well-Architected Review Service and goes deeper into architecture design & deployment.

Service Summary

The primary aim of the service is to help enterprise customers understand and optimise their Azure architecture. This is done via a repeatable process of Prepare-Assess-Review-Remediate.

The assessment will provide a tangible action plan, with effort estimates for implementing design and feature changes which will bring an Azure environment closely aligned to best practice.

- Review the business and technical requirements for project.
- Review the deployed Azure environment's architecture design and services/resources deployed.
- Review the Azure Networking & Connectivity setup.
- Review Azure monitoring and management setup.
- Review the Azure Security Controls and setup.
- Review the Identity and Access configuration.
- Review the Azure consumption costs.
- Review the BCDR solutions within the environment.
- Review the existing governance and management setup.
- Review alignment to the Well-Architected Framework (WAF) pillars.
- Review alignment to the Cloud Adoption Framework (CAF).

Insight's Azure Practice

Insight's Azure Practice

- Global Scale & Reach - US, **UK & EMEA** & APAC
- Azure Expert MSP - Solutions Partner - Advanced Specialisations
- Dedicated Azure Teammates
- 300+ Azure Certified Teammates
