

Unified Digital Workspace Portals for Diverse Audiences

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Unified Digital Workspace Portals for Diverse Audiences

Service Description

A consulting service to design, implement, and optimise enterprise portals tailored for multiple user groups, enhancing collaboration and content management for large organisations.

Features

- Custom portal framework for distinct internal and external audiences
- Personalised content delivery and workflow automation
- Advanced role-based access and security controls
- Seamless integration with existing enterprise applications
- Intuitive user dashboards and digital workspace experiences
- Automated approval and publishing workflows
- Mobile-optimised portals for remote access
- Centralised document and resource management
- Analytics and adoption insight dashboards
- Change management and user training support

Benefits

- Boosts employee and partner engagement with tailored experiences
- Streamlines business processes for faster decision-making
- Reduces IT overhead via automated workflows
- Enhances regulatory compliance through granular access controls
- Improves knowledge sharing and collaboration organisation-wide
- Accelerates onboarding with intuitive, self-service resources
- Empowers stakeholders with real-time data and insights
- Supports digital transformation and workplace modernisation
- Strengthens content governance and lifecycle management
- Increases adoption through targeted training and communications

Constraints

Requires integration with client's existing IT infrastructure. Stakeholder participation mandatory for audience mapping.
