

Cloud Accessibility Assurance for Operational Readiness

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Cloud Accessibility Assurance for Operational Readiness

Service Description

A premium consulting service delivering comprehensive accessibility testing of cloud platforms to ensure operational readiness for organisations seeking inclusive, high-performance digital solutions.

Features

- Expert assessment of cloud platform accessibility compliance standards
- Comprehensive operational readiness verification across key business workflows
- User experience evaluation tailored to diverse accessibility needs
- Automated and manual accessibility testing methodologies
- Detailed remediation recommendations for accessibility gaps
- Integration with ongoing quality assurance and performance testing
- Stakeholder workshop to prioritise accessibility improvements
- Custom test cases based on organisational roles and user journeys
- Accessible documentation and knowledge transfer for internal teams
- End-to-end reporting with actionable insights for leadership

Benefits

- Ensures legal and industry accessibility compliance for cloud solutions
- Enhances operational readiness and user satisfaction for all users
- Mitigates risk of exclusion and reputational damage
- Boosts cloud adoption by accommodating diverse workforce needs
- Reduces remediation costs by identifying accessibility issues early
- Supports a culture of inclusivity and corporate social responsibility
- Improves performance for users with assistive technology requirements
- Bolsters confidence during cloud platform go-live events
- Strengthens competitive positioning in regulated sectors
- Provides measurable, executive-level reporting on accessibility readiness

Constraints

Requires access to target cloud environments and representative user scenarios.
