

Security Analytics Maturity Assessment & Optimisation

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Security Analytics Maturity Assessment & Optimisation

Service Description

Comprehensive evaluation and enhancement of enterprise security analytics capabilities for organisations seeking robust threat detection, compliance, and operational resilience.

Features

- Holistic review of existing security analytics tools and architecture
- Gap analysis against industry best practices and compliance standards
- Integration assessment for SIEM, SOAR, and threat intelligence platforms
- Custom use case development for advanced threat detection
- Data collection and log management optimisation strategies
- Security analytics workflow mapping and automation plan
- User and entity behaviour analytics (UEBA) evaluation
- Executive reporting with actionable recommendations and roadmaps
- Workshops for stakeholder alignment and skills enhancement
- Prioritised implementation plan with measurable KPIs

Benefits

- Enhanced detection of complex and emerging cyber threats
- Strengthened regulatory compliance and audit-readiness
- Reduced mean time to detect and respond to incidents
- Optimised investment in security analytics technologies
- Clarity on current maturity and strategic improvement areas
- Empowerment of security teams through knowledge transfer
- Evidence-based recommendations for future security enhancements
- Improved cross-team collaboration and incident response
- Greater visibility into security posture across the organisation
- Strategic alignment of analytics capabilities with business risk

Constraints

Requires access to analytics infrastructure, data sources, stakeholders; excludes product procurement.
