

Adaptive Identity Access Assurance

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Adaptive Identity Access Assurance

Service Description

Expert consulting and managed service empowering organizations to secure and streamline digital access, combining robust identity controls with seamless user experience for regulated and dynamic environments.

Features

- Comprehensive access policy design aligned to business requirements
- Deployment of multi-factor authentication across cloud and on-premises
- User lifecycle management integrated with HR and IT systems
- Zero-trust access model implementation and roadmap
- Single sign-on enablement for key enterprise applications
- Privileged access controls covering admins and power users
- Automated onboarding and offboarding workflows
- Real-time monitoring of authentication events and anomalies
- Access review and recertification processes to ensure compliance
- Detailed reporting and audit trails for all identity activities

Benefits

- Significantly reduces risk of unauthorized access incidents
- Improves regulatory and compliance posture for audits
- Streamlines user experience with unified authentication
- Accelerates user provisioning and access changes
- Enhances operational agility for remote and hybrid teams
- Provides insightful analytics for proactive risk management
- Supports business growth with scalable identity controls
- Minimizes downtime linked to access issues or breaches
- Boosts employee productivity with frictionless access
- Facilitates seamless integration with leading IAM platforms

Constraints

Requires access to existing identity infrastructure and stakeholder commitment for process alignment.
