

Digital Operations Transformation for Law Enforcement

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Digital Operations Transformation for Law Enforcement

Service Description

Empowering police agencies with streamlined, secure, and data-driven digital workflows for efficient, compliant, and community-focused operations.

Features

- Comprehensive process assessment and operational digital mapping
- Integration of legacy and new policing applications
- Secure data management and evidence handling protocols
- Automated incident response and case management workflows
- Role-based access controls and audit-ready compliance tools
- Inter-agency data sharing setup with privacy safeguards
- Real-time analytics dashboard for command oversight
- Mobile enablement for in-field officers and reporting
- Public engagement portals with secure communication channels
- Change management, training, and adoption support for police staff

Benefits

- Reduces manual paperwork and administrative delays in policing
- Enhances visibility and transparency across police operations
- Strengthens security of sensitive police and citizen data
- Accelerates incident resolution with automated workflows
- Ensures compliance with law enforcement regulations
- Improves inter-agency cooperation and data sharing
- Provides actionable insights for strategic decision-making
- Empowers officers to be more mobile and responsive
- Strengthens trust by enabling secure citizen-police interaction
- Supports cultural and digital change for long-term resilience

Constraints

Requires integration with existing police IT systems. Client must ensure regulatory and legal compliance.
