

# **Real-Time Data Stream Integration & Insights Consulting**

**G Cloud 15 - LOT2A**

# 1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

## 2. Insight for the Public Sector

### Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

### Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

## **Our Approach: Consulting, Lifecycle, & Managed Services**

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

## 3. Services

### Service Name

Real-Time Data Stream Integration & Insights Consulting

### Service Description

Accelerate enterprise decision-making with tailored event stream processing solutions for organizations seeking seamless, high-performance data integration and orchestration across applications.

### Features

- Design and implementation of real-time stream processing architectures
- Integration of multiple data sources for unified event workflows
- Custom configuration of leading stream processing software platforms
- Development of scalable event-driven microservices
- Automated orchestration of event ingestion, processing, and distribution
- Performance monitoring and proactive bottleneck remediation
- Data transformation and enrichment for actionable analytics
- Security and compliance best practices for streaming data pipelines
- Ongoing optimization and tuning of stream processing environments
- Comprehensive knowledge transfer and technical enablement workshops

### Benefits

- Enable instant business insights through real-time data analysis
- Seamlessly connect disparate systems for unified operations
- Reduce manual data movements, minimizing error and latency
- Support mission-critical event-driven business processes at scale
- Accelerate digital transformation and agility
- Enhance visibility of operational and customer events
- Improve decision-making with timely, enriched information
- Lower integration complexity and long-term maintenance costs
- Mitigate compliance and security risks for sensitive data flows
- Empower teams with in-depth understanding and operational autonomy

## Constraints

Requires access to data sources, stakeholder alignment, and client cloud or data infrastructure.
