

Mission-Ready Operations Optimisation for Defence Sector

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Mission-Ready Operations Optimisation for Defence Sector

Service Description

Expert consulting to transform, digitise, and optimise defence sector operations tailored for government, military, and public defence agencies seeking operational excellence.

Features

- Comprehensive defence process assessment and benchmarking against global standards
- Custom digital transformation roadmap for defence operational domains
- Deployment of secure, defence-grade applications and workflow automation
- Enhanced stakeholder engagement and change management for defence personnel
- Integration of legacy and emerging technologies for mission continuity
- Data-driven decision support and real-time operational analytics
- Robust cybersecurity frameworks tailored for defence environments
- Continuous compliance monitoring for regulatory and security mandates
- Scalable cloud and hybrid infrastructure solutions for defence operations
- Post-implementation training and ongoing operational optimisation support

Benefits

- Accelerates mission readiness with streamlined, digitised defence workflows
- Enhances operational agility and responsiveness amid evolving threats
- Mitigates risks through industry-leading defence cybersecurity practices
- Unlocks actionable insights from mission-critical operational data
- Improves collaboration across defence agencies and partner networks
- Ensures compliance with national and international defence standards
- Reduces operational costs through automation and resource optimisation
- Future-proofs defence IT infrastructure for evolving mission requirements
- Supports secure legacy system integration and gradual technology upgrades
- Enables continuous improvement through embedded analytics and feedback loops

Constraints

Available only to government and defence clients; compliance prerequisites and stakeholder access required.
