

Intelligent API Gateway Integration Enablement

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Intelligent API Gateway Integration Enablement

Service Description

Comprehensive consulting for enterprises to securely design, deploy, and optimise API gateway solutions, ensuring robust integration and orchestration across modern application landscapes.

Features

- Strategic assessment of current integration and API landscape
- Custom API gateway architecture and deployment planning
- End-to-end implementation of leading API gateway platforms
- Security policy design and enforcement across all endpoints
- Automated API lifecycle management and governance setup
- Integration with enterprise authentication and identity systems
- Performance tuning and real-time monitoring configuration
- Developer enablement and best practices documentation
- Seamless orchestration of multi-cloud and on-premises APIs
- Comprehensive knowledge transfer and support transition

Benefits

- Accelerates digital transformation through robust API strategies
- Enables secure, scalable connectivity across applications and systems
- Reduces integration complexity and operational overhead
- Strengthens data protection via advanced gateway policies
- Ensures compliance with industry and corporate standards
- Improves developer productivity and collaboration
- Enhances application performance and user experience
- Supports future-ready hybrid and multi-cloud environments
- Facilitates rapid deployment of new digital services
- Delivers measurable value through governance and visibility

Constraints

Requires existing APIs or microservices; client participation in workshops; platform licensing not included.
