

Relational Database Excellence Consulting

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Relational Database Excellence Consulting

Service Description

Comprehensive consulting for organisations seeking to modernise, optimise, and future-proof their relational database environments at scale.

Features

- Strategic database environment assessment and readiness analysis
- Design of high-availability architectures for mission-critical applications
- Performance tuning and query optimisation for existing databases
- Data lifecycle management and best practice implementation
- Migration planning and execution to cloud or hybrid platforms
- Security and compliance gap analysis with actionable recommendations
- Business continuity and disaster recovery strategy development
- Integration with analytics, reporting, and business intelligence tools
- Guidance on automation for database operations and DevOps alignment
- Knowledge transfer and training for IT and application teams

Benefits

- Unlock greater value from your enterprise data assets
- Reduce downtime with robust, modern architecture designs
- Accelerate application performance for end users and customers
- Achieve regulatory compliance with industry best practices
- Simplify migrations to cloud and hybrid environments
- Minimise business risk with tailored continuity strategies
- Enable informed decision-making with advanced data insights
- Optimise operational efficiency through automation and process improvements
- Boost internal capability with focused training and support
- Future-proof your database investments with strategic guidance

Constraints

Requires access to existing database environments and stakeholder engagement throughout the engagement.
