

Modern Client OS Transformation & Management Consulting

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Modern Client OS Transformation & Management Consulting

Service Description

A premium consulting service to assess, design, deploy and optimise secure, future-ready client operating systems for enterprises seeking robust, scalable end-user environments.

Features

- Comprehensive assessment of current client OS landscape and dependencies
- Customised migration planning for Windows, macOS, and Linux endpoints
- Seamless deployment and upgrade management across distributed environments
- Expert advisory on OS security hardening and compliance frameworks
- Integration with identity, device management and endpoint security solutions
- Automated OS imaging, lifecycle, and update orchestration
- User experience optimisation to minimise disruption and maximise productivity
- Ongoing performance monitoring and proactive incident management
- Change management support including training and stakeholder engagement
- Detailed documentation, reporting, and continual service improvement reviews

Benefits

- Reduces risk during OS transformations with expert-led planning and delivery
- Accelerates time-to-value for new operating system initiatives
- Ensures secure, compliant client OS environments across your enterprise
- Minimises end-user disruption through seamless migration and onboarding
- Optimises future OS management with automation and best practices
- Aligns OS strategy with organisational goals and regulatory requirements
- Improves endpoint security posture and vulnerability mitigation
- Empowers IT teams with actionable insights and operational documentation
- Supports scalable deployment to accommodate evolving workforce needs
- Facilitates ongoing optimisation and adaptability to emerging technologies

Constraints

Requires access to existing environment data, stakeholder involvement, and compatible infrastructure.
