

Intelligent Logistics Optimisation Suite

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Intelligent Logistics Optimisation Suite

Service Description

A consulting solution for government organisations seeking to modernise and optimise their logistics and transportation management within the supply chain.

Features

- End-to-end analysis of logistics workflows across the supply chain
- Custom digital solution design for transportation management needs
- Integration of advanced analytics for real-time decision-making
- Supplier and carrier collaboration platform enablement
- Automated scheduling and dispatch system configuration
- Visibility dashboards providing shipment tracking and KPIs
- Risk identification and mitigation strategies for logistics operations
- Change management support and user adoption training
- Benchmarking current logistics performance against industry best practices
- Comprehensive reporting and continuous improvement roadmap

Benefits

- Streamlined logistics operations for higher throughput and agility
- Reduced costs through process automation and optimisation
- Enhanced visibility for real-time monitoring and control
- Improved customer satisfaction via reliable delivery performance
- Decreased disruption risk with proactive management tools
- Greater compliance with regulatory and contractual obligations
- Faster response to market changes and demand surges
- Increased supplier and carrier collaboration efficiency
- Data-driven insights guide strategic logistics investments
- Continuous improvement culture embedded within logistics teams

Constraints

Requires access to current logistics data and stakeholder participation throughout engagement.
