

AI-Powered Enterprise Knowledge Discovery Solutions

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

AI-Powered Enterprise Knowledge Discovery Solutions

Service Description

Unlock actionable insights from content using advanced AI search and knowledge discovery for organisations seeking digital transformation.

Features

- Custom AI-driven search algorithms tailored to business domain
- Automated content ingestion from structured and unstructured sources
- Natural language query support for intuitive user experience
- Semantic analysis to identify relevant information and insights
- Integration with major enterprise platforms and data lakes
- User-centric dashboards for knowledge visualization and analytics
- Secure access controls aligned with corporate governance policies
- Continuous learning models to improve search accuracy over time
- Real-time alerting for critical knowledge updates and discoveries
- Comprehensive implementation and change management support

Benefits

- Accelerates informed decision-making throughout the organisation
- Reduces time spent searching for critical information
- Improves knowledge retention and re-use across teams
- Enables data-driven innovation and competitive advantage
- Boosts employee productivity and collaboration
- Enhances compliance by surfacing relevant documentation quickly
- Permits seamless integration into existing business workflows
- Scales easily with organisational growth and data volumes
- Increases ROI from existing data assets and content stores
- Supports cultural change towards digital and knowledge-centric operations

Constraints

Requires integration with enterprise data sources and user authentication systems.
