

Modern Object-Oriented Database Enablement

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Modern Object-Oriented Database Enablement

Service Description

A premium consulting solution for organisations seeking to design, deploy, and optimise object-oriented database systems to power application development and advanced data management.

Features

- Custom assessment of current data architecture and readiness
- Strategic design of scalable object-oriented database solutions
- Integration planning with existing applications and workflows
- Selection of fit-for-purpose object database platforms
- Data modelling consultation for complex object hierarchies
- Migration support from relational and legacy systems
- Performance optimization and indexing strategies
- Security and compliance alignment for sensitive data
- Continuous monitoring setup and operational training
- Documentation and knowledge transfer for technical teams

Benefits

- Accelerates digital transformation with modern data infrastructures
- Enables agile development with complex data object models
- Improves application performance via tailored data storage solutions
- Reduces integration risks with expert migration support
- Enhances data governance and compliance posture
- Optimises total cost of ownership over legacy systems
- Boosts developer productivity through modern methodologies
- Future-proofs data architecture for scalability and innovation
- Facilitates real-time analytics and advanced app features
- Empowers in-house teams through robust training and support

Constraints

Requires access to key data platforms and stakeholder participation; project scope excludes hardware procurement.
