

Adaptive Software Lifecycle Governance & Change Management

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Adaptive Software Lifecycle Governance & Change Management

Service Description

Comprehensive consulting for organisations needing robust software lifecycle control, change governance, and process optimisation to boost software quality, agility, and compliance.

Features

- End-to-end software lifecycle assessment and maturity benchmarking
- Design and implementation of change management frameworks
- Configuration management process definition and automation
- Continuous integration and deployment pipeline consultation
- Quality assurance and testing process optimization
- Customizable risk management and compliance alignment
- Stakeholder engagement workshops and requirements mapping
- Tooling selection and integration advisory
- Metrics, reporting, and continuous improvement dashboards
- Onsite and remote coaching for client teams

Benefits

- Accelerates software delivery with predictable quality outcomes
- Reduces risk and costly rework via controlled change processes
- Improves regulatory compliance and audit readiness
- Enables real-time visibility into process health and bottlenecks
- Aligns development practices with business objectives
- Boosts team productivity through automation and best practices
- Simplifies adoption of new tools and technologies
- Fosters cross-functional collaboration and knowledge transfer
- Drives proactive decision making through actionable insights
- Supports sustainable software agility and operational resilience

Constraints

Requires client sponsorship, access to key stakeholders, and system/process documentation.
