

Cloud Object Storage Enablement & Governance

G Cloud 15 - LOT1A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Cloud Object Storage Enablement & Governance

Service Description

A premium consulting solution for enterprises seeking scalable, secure, and compliant object storage in the cloud, tailored to maximise agility and reduce risk.

Features

- Strategic assessment of storage needs and long-term scalability planning
- End-to-end design and deployment of secure cloud object storage
- Integration with leading cloud platforms for seamless operations
- Robust lifecycle management and tiering policy implementation
- Automated backup, data protection, and disaster recovery configuration
- Access controls and permission strategies for regulatory compliance
- Data residency, encryption, and immutability protocol advisory
- Cost-optimization modelling and consumption forecasting tools
- Migration of on-premises or legacy data to object storage platforms
- Continuous monitoring, support, and optimisation recommendations

Benefits

- Enables rapid data access to support digital transformation initiatives
- Reduces IT infrastructure costs through pay-per-use consumption
- Ensures regulatory and industry compliance for sensitive data sets
- Mitigates data loss risk with advanced backup and recovery features
- Enhances business agility with scalable storage that grows with demand
- Protects assets with enterprise-grade security and encryption measures
- Improves cloud resilience by leveraging industry-leading cloud providers
- Simplifies operational management with automated policy enforcement
- Accelerates cloud adoption and workload modernisation projects
- Delivers ongoing cost transparency for smarter IT budgeting

Constraints

Requires compatible cloud subscription and network connectivity; migration scope may impact timelines.
