

Accelerated Storage Performance Optimization Consulting

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Accelerated Storage Performance Optimization Consulting

Service Description

Expert advisory and implementation services for organizations seeking to maximize storage system speed and efficiency using advanced storage acceleration software.

Features

- Comprehensive assessment of existing storage infrastructure and workloads
- Tailored acceleration strategy aligned to performance objectives
- Selection and integration of industry-leading acceleration technologies
- Implementation of caching, tiering, and optimization solutions
- Performance benchmarking and baseline establishment
- Workload-specific tuning to minimize latency and bottlenecks
- Automated monitoring and alerting for real-time performance insights
- Scalability planning for future growth and hybrid environments
- Best practices documentation and knowledge transfer workshops
- Ongoing optimization and health-check service options

Benefits

- Dramatically faster application response and data access times
- Increased efficiency from existing hardware investments
- Reduced storage latency supporting critical business operations
- Minimized downtime through proactive performance management
- Enhanced user satisfaction with consistently high data throughput
- Improved scalability to handle future data growth seamlessly
- Streamlined operations through automation and monitoring integration
- Lower total cost of ownership by delaying costly hardware refreshes
- Strong alignment with business continuity and compliance mandates
- Expert-led support reducing risk and accelerating project outcomes

Constraints

Requires compatible storage systems and client IT team involvement for integration.
