

Enterprise Transaction Processing Platform Optimization

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Enterprise Transaction Processing Platform Optimization

Service Description

Expert advisory and transformation service for organizations seeking robust, scalable transaction processing via modern deployment-centric application platforms.

Features

- Comprehensive assessment of current transaction processing environments
- Benchmarking platform performance against industry best practices
- Design and implementation of scalable transaction processing architectures
- Integration of deployment-centric application platforms for high availability
- Optimization of transaction throughput and response times
- Advanced monitoring and automated health checks for transaction systems
- End-to-end security reviews of transactional data flows
- Seamless migration planning and execution for legacy platforms
- Custom workflow automation for mission-critical transactions
- On-going support and platform lifecycle management services

Benefits

- Accelerate time-to-value for new and existing business applications
- Minimize costly downtime with resilient transaction infrastructure
- Enable seamless scaling to meet peak transaction demands
- Enhance application performance and customer experience
- Reduce operational complexity with centralized management
- Lower long-term total cost of ownership through platform optimization
- Strengthen compliance with robust security controls
- Facilitate future upgrades and platform modernization
- Streamline integrations with other enterprise systems
- Receive continual expert guidance and proactive support

Constraints

Requires access to current systems and stakeholder engagement; legacy systems may need remediation.
