

# **Accelerated Model-Driven Application Platform Enablement**

**G Cloud 15 - LOT2B**

# 1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

## 2. Insight for the Public Sector

### Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

### Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

## **Our Approach: Consulting, Lifecycle, & Managed Services**

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

## 3. Services

### Service Name

Accelerated Model-Driven Application Platform Enablement

### Service Description

A premium consulting service for enterprise IT leaders seeking rapid deployment and customisation of model-driven application platforms to enhance business agility and scalability.

### Features

- Comprehensive assessment of existing IT and application landscapes
- Rapid deployment of model-driven application platforms
- Custom configuration to align platform with unique business processes
- Integration of automation and workflow optimisation tools
- Seamless connectivity with legacy and modern systems
- User-centric interface design and configuration
- Establishment of robust governance and compliance frameworks
- Secure migration of data and applications to the new platform
- Enablement of citizen development capabilities via low-code tools
- Continuous knowledge transfer and technical enablement workshops

### Benefits

- Accelerate time-to-value for new digital initiatives
- Empower business users to build solutions with minimal IT dependency
- Reduce development costs through reusable platform components
- Enhance application scalability and adaptability as business needs evolve
- Simplify integration across disparate enterprise systems
- Strengthen data governance and regulatory compliance
- Minimise migration risk and operational disruption
- Improve end-user experience through intuitive application design
- Foster a culture of innovation via citizen development
- Ensure ongoing platform optimisation with expert guidance

## Constraints

Requires stakeholder commitment, suitable infrastructure, and standard security compliance prerequisites.
