

Cloud Scalability Assurance & Optimization Service

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Cloud Scalability Assurance & Optimization Service

Service Description

Expert-led performance assessment for cloud environments to validate scalability, optimize resource allocation, and ensure seamless growth for organizations facing dynamic demand.

Features

- Comprehensive analysis of cloud system scalability under variable workloads
- Customized test scenarios simulating spikes and long-term growth patterns
- Automated execution of scalability tests on infrastructure and applications
- Resource utilization monitoring with real-time performance metrics dashboard
- Bottleneck identification across compute, storage, and network layers
- Recommendations for scaling policies and architectural improvements
- Stress and volume testing to support capacity planning
- Load balancing and auto-scaling validation for peak efficiency
- Detailed reporting with prioritized remediation actions
- Collaborative workshops for knowledge transfer to client teams

Benefits

- Mitigates risk of outages during periods of rapid growth
- Ensures investment in cloud is optimized for actual business needs
- Improves end-user experience through resilient, responsive systems
- Identifies cost-saving opportunities by eliminating overprovisioning
- Empowers teams with actionable insights for proactive management
- Accelerates cloud adoption by increasing trust in scalability
- Enables informed decision-making for future expansion and migration
- Reduces downtime by pinpointing potential failure points
- Aligns IT operations with business objectives and digital strategies
- Drives continuous improvement of cloud ecosystem performance

Constraints

Requires client access to relevant cloud environments and cooperation from IT teams.
