

Navigational DBMS Advisory & Transformation

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Navigational DBMS Advisory & Transformation

Service Description

Expert consulting and transformation for organisations relying on legacy navigational database systems, ensuring optimal integration, performance, and future-proofed data management strategies.

Features

- Comprehensive assessment of existing navigational database environments
- Strategic roadmap for legacy database modernisation and integration
- Data migration planning and risk mitigation strategies
- Performance tuning and optimisation for navigational databases
- Custom interface development and workflow enhancement
- Security and compliance auditing for legacy data storage
- Vendor-neutral evaluation of modern alternatives and hybrid models
- Knowledge transfer and upskilling for IT and operations teams
- Ongoing managed support and incident response protocols
- Cost-benefit analysis tailored to organisational business objectives

Benefits

- Unlocks greater value from existing data investments
- Reduces operational risk linked to outdated database technologies
- Improves data access speed and reliability for critical applications
- Facilitates seamless integration with modern IT ecosystems
- Strengthens data security and regulatory compliance posture
- Enables phased migration with minimal business disruption
- Empowers teams with legacy system management expertise
- Lowers long-term maintenance and technology costs
- Supports strategic digital transformation initiatives
- Delivers measurable ROI through enhanced data management agility

Constraints

Requires legacy system access, SME engagement, and may be limited by proprietary vendor lock-in.
