

Data Security Posture

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Data Security Posture

Service Description

The Data Security Posture Assessment delivers a comprehensive review of data protection, governance, and privacy controls across all environments. It identifies risks and prioritised improvements to reduce data loss and strengthen compliance, leveraging Insight's deep Microsoft partnership and expertise in Microsoft Purview to design and implement effective data security controls.

Features

- Data Security Posture
- Comprehensive assessment of data protection, governance, and privacy measures
- Evaluation across on-premises, cloud, hybrid, and multi-cloud environments
- Identification of data gaps, vulnerabilities, and key risks
- Prioritised remediation recommendations for data security improvements
- Detailed documentation supporting holistic data strategy and compliance
- Assessment of controls: access, classification, encryption, backup, retention
- User awareness, training, and incident response planning included

Benefits

- Enables confident implementation of data compliance plans and controls
- Reduces risk of data loss and consequential risks to service users
- Optimises cybersecurity budget and resource allocation.
- Improves ability to classify, protect, and govern data
- Supports digital transformation with secure data management
- Enhances user awareness and organisational data security culture
- Aligns data security with business goals and regulations

Constraints

The Data Security Posture Assessment is delivered flexibly and can be performed remotely or on-site, depending on client preference and agreement. No constraints such as remote-only support or sector limitations are applicable; activities and scope are tailored to client needs
