

Intelligent Metadata Management Transformation

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Intelligent Metadata Management Transformation

Service Description

For organisations seeking to unify, enrich, and govern their enterprise metadata for improved data value and compliance.

Features

- Comprehensive metadata inventory and mapping across all data sources
- Automated metadata harvesting using advanced integration connectors
- Centralised metadata repository design and implementation
- Semantic enrichment and annotation for improved data discovery
- Data lineage tracking to ensure traceability and regulatory compliance
- Role-based access controls for secure metadata management
- Integration with data governance frameworks and policies
- Automated metadata quality checks and anomaly detection
- Custom reporting and analytics dashboards for metadata insights
- Strategic roadmap for metadata lifecycle management and scalability

Benefits

- Unlocks full data value through improved search and discovery
- Accelerates regulatory compliance with auditable metadata trails
- Reduces integration complexity via centralised metadata governance
- Increases data trustworthiness by automating metadata quality checks
- Improves collaboration between data stewards and business users
- Enables faster project delivery through reusable metadata assets
- Minimises operational risk with consistent metadata standards
- Streamlines onboarding of new data sources and platforms
- Empowers data-driven innovation by revealing hidden relationships
- Positions the organisation for future AI and analytics initiatives

Constraints

Requires access to all relevant data sources and existing documentation.
