

EDA Application Optimisation & Advisory Suite

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

EDA Application Optimisation & Advisory Suite

Service Description

A consulting service for organisations using Electronic Design Automation (EDA) software in engineering environments, delivering optimisation, integration, and transformative value.

Features

- In-depth assessment of current EDA application architecture
- Integration recommendations with existing engineering workflows
- Custom EDA workflow and process optimisation planning
- Vendor-neutral selection and benchmarking of EDA tools
- Performance tuning for compute-intensive EDA workloads
- Security analysis and risk mitigation for engineering IP
- Cloud enablement strategy for EDA environments
- Change management support for engineering teams
- Training for staff on new EDA toolsets and best practices
- Ongoing advisory for EDA roadmap and innovation alignment

Benefits

- Accelerate time-to-market for engineered products
- Reduce inefficiencies in electronic design processes
- Maximise ROI from existing EDA software investments
- Enable seamless collaboration across engineering teams
- Enhance protection of sensitive engineering intellectual property
- Drive down operating costs through resource optimisation
- Future-proof EDA strategy against technology disruption
- Empower engineering teams with up-to-date skills
- Ensure EDA compliance with industry and security standards
- Facilitate adoption of emerging EDA and cloud innovations

Constraints

Requires access to current EDA environments, workflows, and relevant engineering stakeholders.
