

Cloud Security Architecture & Risk Reduction Advisory

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Cloud Security Architecture & Risk Reduction Advisory

Service Description

Expert-led design of robust security frameworks for cloud environments, tailored for organisations seeking resilient, compliant cloud operations.

Features

- Holistic assessment of current cloud security posture and controls
- Design of layered security architecture mapped to cloud best practices
- Zero Trust principles incorporated throughout the security design
- Comprehensive risk analysis and gap identification
- Custom security baselines aligned to business and compliance needs
- Recommendations for secure identity and access management
- Data protection strategy covering encryption and loss prevention
- Endpoint and workload security configuration guidance
- Governance framework for ongoing security assurance
- Clear roadmap for secure cloud deployment and operations

Benefits

- Mitigate risks of breaches through proactive security design
- Accelerate cloud adoption with confidence in security controls
- Demonstrate robust compliance to regulators and auditors
- Enhance data protection for sensitive and regulated information
- Gain rapid visibility into cloud security weaknesses
- Reduce operational disruptions with resilient architectures
- Streamline identity and access management for staff
- Benefit from expert knowledge of latest threats and mitigation
- Support efficient, secure collaboration across cloud platforms
- Empower IT teams with actionable, prioritised security guidance

Constraints

Requires access to current cloud environment and documentation; scope excludes hands-on remediation.
