

Modern Virtual Workspace Enablement

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Modern Virtual Workspace Enablement

Service Description

Comprehensive consulting for deploying secure, scalable virtual client computing solutions. Ideal for enterprises seeking flexible digital workspaces, streamlined management, and enhanced end-user productivity.

Features

- End-to-end assessment of existing workspace infrastructure and user requirements
- Design and planning of modern virtual client environments
- Implementation of secure, cloud-integrated virtual desktops
- Automated device provisioning and onboarding processes
- Centralised management of applications and user policies
- Seamless integration with authentication and identity services
- Support for hybrid and remote work scenarios
- Ongoing performance monitoring and optimisation
- Change management and comprehensive end-user adoption training
- Scalable architecture to support future business growth

Benefits

- Enables remote and hybrid work for diverse employee needs
- Reduces physical hardware dependency and related costs
- Streamlines IT operations with centralised workspace management
- Enhances end-user security through policy-driven controls
- Improves onboarding speed for new and re-assigned users
- Boosts business agility with rapid workspace provisioning
- Future-proofs technology investments via scalable solutions
- Optimises application delivery across multiple devices
- Promotes consistent user experience organisation-wide
- Strengthens compliance with robust access and data protections

Constraints

Requires modern infrastructure, supported endpoints, and compatible licensing for full deployment.
