

Treasury & Risk Optimisation

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Treasury & Risk Optimisation

Service Description

A consulting offering for organisations seeking to modernise and optimise treasury and risk management through best-in-class applications, process re-engineering, and strategic advisory.

Features

- Comprehensive treasury process assessment and gap analysis service
- Selection and implementation of treasury management software solutions
- Integrated risk analytics for cash, liquidity, and financial exposures
- Automated control frameworks for compliance and audit readiness
- End-to-end project management from discovery to go-live and support
- Bespoke integration with existing ERP and financial platforms
- Customizable reporting for regulatory, management, and audit purposes
- User adoption, training, and change management programs
- Continuous performance monitoring with optimization recommendations
- Strategic advisory on treasury transformation and future-proofing

Benefits

- Enhances financial visibility and real-time cash management capability
- Reduces operational and regulatory risk exposure enterprise-wide
- Improves compliance with global financial standards and policies
- Accelerates decision-making with advanced data-driven insights
- Lowers operational costs through automation and process efficiency
- Enables seamless integration with wider enterprise finance systems
- Drives user adoption and resilient organizational change
- Optimizes capital structure and liquidity planning execution
- Supports audit-readiness and improves stakeholder trust
- Future-proofs treasury operations against evolving business risks

Constraints

Requires access to current treasury processes, IT landscape, and stakeholder engagement.
