

Data Quality Excellence Assessment & Enablement

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Data Quality Excellence Assessment & Enablement

Service Description

Our Data Quality Excellence Assessment & Enablement consulting enables you to enhance, control, and optimise data quality and integration.

Features

- Holistic assessment of current data quality programs and processes
- Data profiling to identify inconsistencies and anomalies across sources
- Root cause analysis of data quality issues impacting business outcomes
- Integration advisory for consolidating disparate enterprise data systems
- Data cleansing and enrichment roadmaps with actionable prioritization
- Implementation planning for best-fit Data Quality Software solutions
- Custom design of data validation, deduplication, and monitoring workflows
- Governance frameworks for ongoing data quality ownership and compliance
- User enablement workshops for stakeholders and business users
- Success measurement with KPIs, dashboards, and continuous improvement cycles

Benefits

- Boosts reliability of analytics, AI, and business decision-making
- Reduces costly data errors and operational inefficiencies
- Accelerates integration across legacy and cloud data sources
- Delivers tailored recommendations aligned with business priorities
- Empowers teams with best practices and sustainable processes
- Mitigates compliance risks tied to inaccurate or incomplete data
- Improves stakeholder trust in organizational data assets
- Supports faster time-to-value for digital transformation
- Establishes clear data ownership and governance models
- Enables ongoing measurement and continuous data quality improvement

Constraints

Requires access to relevant data systems, stakeholder commitment, and defined business objectives.
