

Dedicated Bare Metal Infrastructure Consulting

G Cloud 15 - LOT1A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Dedicated Bare Metal Infrastructure Consulting

Service Description

Expert guidance for enterprises deploying high-performance bare metal infrastructure to power mission-critical workloads, optimise compute resources, and enhance IT flexibility.

Features

- Comprehensive assessment of organisational compute requirements
- Architecture design optimised for bare metal workloads
- Vendor-agnostic hardware selection and procurement advisory
- Integration planning with existing network and storage systems
- Custom security and compliance framework implementation
- Performance benchmarking and workload optimisation
- High-availability and disaster recovery design consultation
- Automated provisioning and configuration blueprints
- Migration roadmap for legacy or virtual environments
- Ongoing governance and lifecycle management recommendations

Benefits

- Maximise compute power with direct hardware access
- Reduced virtualisation overhead for intensive applications
- Customisable infrastructure to meet unique business demands
- Enhanced data security and workload isolation
- Improved compliance posture with tailored controls
- Optimised IT spend through precise resource allocation
- Accelerated deployment with expert-driven roadmaps
- Seamless integration with hybrid and multi-cloud strategies
- Future-proofed design for scalable growth
- Informed decision-making via actionable governance insights

Constraints

Requires dedicated data centre space, upfront hardware investment, and skilled IT staff for ongoing management.
