

Enterprise Data Quality Excellence Consulting

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Enterprise Data Quality Excellence Consulting

Service Description

A premium advisory and implementation service ensuring accurate, consistent, and trusted enterprise data for organizations seeking to unlock full business value from their information assets.

Features

- End-to-end data quality assessment across all key business domains
- Customizable data quality framework tailored to organization needs
- Advanced profiling to identify and address data anomalies
- Automated cleansing rules and validation process design
- Integration of industry-leading data quality software tools
- Hands-on support for data deduplication and standardization
- Establishment of ongoing monitoring and improvement protocols
- Stakeholder training for sustained data quality practices
- Comprehensive data governance alignment and documentation
- Actionable reporting with executive dashboards and KPIs

Benefits

- Increases business confidence in decision-making accuracy
- Improves compliance with regulatory data standards
- Reduces costly errors caused by poor data integrity
- Accelerates digital transformation initiatives with reliable data
- Enhances operational efficiency through trusted information flows
- Unlocks new insights for revenue growth and innovation
- Supports seamless data integration across platforms
- Strengthens collaboration between business and IT teams
- Lowers risk of reputational damage from data issues
- Delivers measurable ROI from improved data quality processes

Constraints

Requires access to client data sources and stakeholder involvement throughout engagement.
