

Cloud Security Quality Assurance & Testing Excellence

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Cloud Security Quality Assurance & Testing Excellence

Service Description

Comprehensive security quality assurance and rigorous testing for organisations operating in the cloud, designed to proactively identify, assess, and mitigate security risks to ensure robust protection and compliance.

Features

- Holistic cloud security gap assessment aligned with Zero Trust principles
- Automated vulnerability scanning and penetration testing of cloud assets
- Review and validation of security configurations and policies
- Controlled simulated attack exercises for real-world risk validation
- Testing of security controls across Office 365 and cloud platforms
- Evaluation of endpoint security and compliance posture
- Comprehensive remediation recommendations and improvement roadmap
- Regular reporting with actionable security insights for stakeholders
- Ongoing monitoring setup to ensure continuous threat detection
- SLA-driven support and advisory for risk mitigation and compliance

Benefits

- Mitigates cloud security threats before they impact operations
- Ensures compliance with industry and regulatory standards
- Enhances organisation's reputation through robust security posture
- Reduces risk of costly data breaches and system downtime
- Delivers clear, executive-ready security assessment reports
- Strengthens endpoint and cloud platform security controls
- Improves user trust and IT stakeholder confidence
- Enables proactive policies for future cloud deployments
- Supports faster, safer adoption of new cloud technologies
- Empowers IT teams with expert guidance and ongoing support

Constraints

Requires access to cloud environments and cooperation from client IT teams.
