

Cloud-Native Database Excellence as a Service

G Cloud 15 - LOT1A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Cloud-Native Database Excellence as a Service

Service Description

A managed consulting service for organizations seeking robust, secure, and scalable cloud-based database management, optimized for agility and compliance across modern PaaS environments.

Features

- Comprehensive assessment of current database landscape and migration readiness
- Strategic design of optimized cloud-native database architectures
- Implementation of automated backup, recovery, and disaster recovery protocols
- Robust security configuration and continuous compliance monitoring
- Real-time performance tuning and workload optimization
- Automated scaling and resource management for growing demands
- Integrated data governance and access control frameworks
- Continuous health monitoring and proactive incident resolution
- Customizable reporting and analytics on database usage and costs
- Ongoing knowledge transfer and best practice consulting for client teams

Benefits

- Accelerates digital transformation with rapid cloud database adoption
- Enhances data security and regulatory compliance posture
- Drives operational efficiencies via automation and optimization
- Boosts application performance and reliability for end-users
- Reduces total cost of database ownership and maintenance overhead
- Improves agility to respond to market and business changes
- Provides resilient disaster recovery and business continuity
- Simplifies complex data management for hybrid and multi-cloud
- Frees internal IT staff to focus on strategic initiatives
- Delivers expert-led best practices tailored to business needs

Constraints

Requires existing cloud PaaS subscription and compatible data sources for migration.
