

Cloud Security Posture Audit & Remediation

G Cloud 15 - LOT3

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Cloud Security Posture Audit & Remediation

Service Description

A comprehensive security review and improvement program for organizations relying on cloud platforms. Designed to identify, assess, and enhance your cloud security posture to protect critical workloads and ensure continuous compliance.

Features

- In-depth assessment of current cloud security configurations and controls
- Identity, Office365, and endpoint security settings thorough evaluation
- Interactive workshops to discuss findings, risks, and recommendations
- Provision of a detailed security audit report with prioritised actions
- Implementation support for low-impact security improvements
- Proof-of-concept deployment of key security technologies
- Configuration of anti-phishing, safe attachments, and advanced threat protection
- Review and refinement of monitoring dashboards and alert rules
- Stakeholder workshops to align security strategy with business goals
- Post-assessment review sessions for continuous improvement planning

Benefits

- Reduces risk of security breaches in cloud environments
- Enhances compliance with regulatory frameworks and best practices
- Provides actionable insights to improve cloud security posture
- Accelerates adoption of advanced security features
- Improves visibility of threats with tailored dashboards and alerts
- Minimizes disruption to end-users during security enhancements
- Strengthens organizational resilience against evolving threats
- Supports informed decision-making with expert recommendations
- Enables proactive identification and mitigation of vulnerabilities
- Fosters a security-conscious culture across teams and stakeholders

Constraints

Requires access to cloud environments and cooperation from IT stakeholders. Limited to supported platforms.
