

Legacy Data Architecture Optimisation for Fixed Record Systems

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Legacy Data Architecture Optimisation for Fixed Record Systems

Service Description

A comprehensive consulting service to modernize, optimize, and future-proof fixed record database environments for organizations reliant on legacy structured data.

Features

- In-depth assessment of existing fixed record databases and workflows
- Modernization roadmap tailored to business continuity and compliance
- Integration strategies with modern data platforms and applications
- Legacy data migration planning with zero-data-loss guarantees
- Performance benchmarking and workload optimization for fixed record systems
- Custom automation scripts for routine data operations and integrity checks
- Compliance and audit-readiness review for all fixed record repositories
- Disaster recovery and high availability solutions tailored to legacy formats
- Training and enablement for internal teams on modern management practices
- Ongoing support and advisory for future upgrades and technology transitions

Benefits

- Extend the lifespan and value of mission-critical legacy data systems
- Mitigate risk of data loss or corruption during modernization efforts
- Accelerate business processes through optimized data operations
- Achieve compliance with industry regulations and audit mandates
- Enable integration with modern analytics and reporting tools
- Improve system resilience with up-to-date disaster recovery plans
- Reduce maintenance costs via automation and best practices
- Empower teams with new management and operational skillsets
- Ensure continuity across transformation projects and stakeholder groups
- Position your organization for strategic technology advancement

Constraints

Requires access to existing fixed record systems and relevant documentation.
