

Privileged Access Management Strategy & Implementation

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Privileged Access Management Strategy & Implementation

Service Description

A comprehensive service for enterprises seeking secure, robust privileged identity and access management, tailored to mitigate risks and enforce least-privilege across complex infrastructures.

Features

- Expert assessment of current privilege access landscape and risk profile
- Tailored privileged access strategy aligned to business compliance requirements
- Design and implementation of least privilege and zero-trust models
- Integration with identity lifecycle and workflow automation tools
- Deployment of privileged access vaults and session management solutions
- Multi-factor authentication for critical and administrative accounts
- Real-time monitoring and analytics for privileged account activities
- Automated reporting and compliance evidence generation
- Incident response design and simulation for privilege misuse events
- Comprehensive training and change management for end-users and admins

Benefits

- Reduces risk of breaches by securing privileged user access
- Enforces least-privilege principles to minimize attack surface
- Accelerates regulatory compliance with automated audit trails
- Improves operational efficiency through process automation
- Facilitates rapid detection and response to privilege abuse
- Enhances user and admin productivity with streamlined workflows
- Provides executive visibility via detailed analytics dashboards
- Supports hybrid and legacy infrastructures seamlessly
- Enables scalable and future-proof privilege management practices
- Boosts stakeholder confidence with proven security controls

Constraints

Requires integration with existing directory and security systems; scope limited to supported platforms.
