

Comprehensive Endpoint Security Assurance

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Comprehensive Endpoint Security Assurance

Service Description

Holistic endpoint protection for enterprises seeking proactive defence and compliance. Safeguard all user devices against modern threats, tailored to complex IT environments.

Features

- End-to-end device threat assessment and mitigation
- Custom policy design for enterprise-grade device protection
- Advanced malware and ransomware prevention solutions
- Integrated vulnerability scanning and patch automation
- Real-time monitoring and incident response capabilities
- Zero Trust framework integration for endpoint access
- Automated compliance reporting and audit support
- Secure remote device provisioning and deprovisioning
- User behaviour analytics to detect anomalous activities
- Comprehensive endpoint data loss prevention strategies

Benefits

- Reduces the risk of costly security breaches
- Ensures consistent device compliance across the enterprise
- Accelerates threat detection and response times
- Minimizes downtime from cyber incidents
- Improves regulatory and audit readiness
- Enables secure remote and hybrid work models
- Instils user trust through consistent protection standards
- Optimises resource allocation with automated workflows
- Supports digital transformation initiatives securely
- Protects reputation by preventing data exfiltration

Constraints

Requires supported modern device OS and network access for full functionality.
