

Enterprise File Storage Modernisation & Optimisation Service

G Cloud 15 - LOT1A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Enterprise File Storage Modernisation & Optimisation Service

Service Description

A comprehensive consulting and deployment service for organisations seeking to modernise, optimise and manage scalable enterprise file storage in hybrid and cloud IaaS environments.

Features

- End-to-end discovery and analysis of current file storage landscape
- Custom architecture blueprinting for scalable IaaS file storage solutions
- Automated migration planning and execution from legacy to cloud storage
- Seamless integration with hybrid and on-premises infrastructures
- Advanced data classification and file lifecycle management workflows
- High-availability design and implementation with data resilience focus
- Policy-driven access, sharing, and permission management frameworks
- Automated reporting on storage consumption and file system health
- Optimization of costs through storage tiering and consolidation
- Ongoing governance with proactive monitoring, alerts and recommendations

Benefits

- Accelerates migration from legacy to modern file storage platforms
- Reduces operational risk through validated, best-practice frameworks
- Enhances scalability to meet dynamic business growth and demand
- Enables secure, policy-driven user access across locations
- Delivers insight into usage patterns for smarter resource planning
- Minimises downtime with resilient, highly available storage design
- Improves compliance with automated reporting and data controls
- Optimises IT spend with tailored storage tiering and consolidation
- Supports integration with current hybrid or multi-cloud environments
- Empowers IT teams with ongoing governance and actionable intelligence

Constraints

Requires access to existing storage infrastructure and sufficient network bandwidth for migration.
