

Integrated Supply Chain Planning Excellence

G Cloud 15 - LOT2B

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Integrated Supply Chain Planning Excellence

Service Description

A strategic consulting service for organisations seeking to modernise and optimise supply chain planning processes through industry-leading applications, tailored for efficiency and resilience.

Features

- Comprehensive supply chain needs assessment and process mapping
- Customised application selection and implementation strategy
- Integration planning with ERP, CRM, and logistics platforms
- Advanced demand forecasting and inventory optimization tools
- Scenario-based supply and demand planning simulations
- Automated workflow design for real-time planning adjustments
- KPI development and performance analytics dashboards
- End-user and executive training programs
- Change management and stakeholder alignment workshops
- Ongoing support, monitoring, and continuous improvement roadmap

Benefits

- Enhances supply chain visibility and end-to-end transparency
- Improves demand accuracy and reduces inventory costs
- Accelerates response to market shifts and disruptions
- Enables data-driven, proactive decision-making
- Integrates seamlessly with existing enterprise applications
- Boosts collaboration across procurement, operations, and sales
- Drives operational efficiency and streamlines workflows
- Increases supplier and partner agility
- Supports sustainable, compliant supply chain practices
- Delivers measurable ROI and long-term competitive advantage

Constraints

Requires integration with existing business systems; client participation in discovery workshops is essential.
