

Intelligent Storage Tiering Optimisation Service

G Cloud 15 - LOT2A

1. Insight

Insight leads the delivery of transformative solutions, supported by a powerful ecosystem of over 6,000 global partners including Microsoft, AWS, and Cisco.

As a Fortune 500 company with a long-standing history of delivering trusted services to the UK Public Sector, we combine our own deep expertise in consulting, advisory, and transformation with partner innovation to create holistic solutions across cloud, data, modern workplace, cybersecurity, and application services.

Guided by proven methodologies and ESG principles, we work collaboratively to design and implement tailored strategies that drive measurable business impact while promoting sustainability and governance excellence.

2. Insight for the Public Sector

Your End-to-End Digital Transformation Partner

As a leading Solutions Integrator, Insight combines deep technical expertise with a vast partner ecosystem to help UK government organisations modernise, innovate, and deliver citizen-centric services. We hold places on over 85 public sector frameworks, offering a compliant, efficient route to digital transformation.

We don't just supply IT; we design, deploy, and manage the solutions that secure your data and unlock value.

Core Areas of Expertise

- **Innovation, Data & AI:** we deliver end-to-end data science and custom AI solutions. From modernising data platforms to deploying bespoke machine learning and spatial computing, we help you unlock the value of your data to drive operational efficiency.
- **Modern Infrastructure & Cloud:** Building scalable, hybrid foundations that reduce technical debt and support multi-cloud strategies.
- **Modern Workplace:** Empowering the public sector with secure, flexible tools to work from anywhere, attracting talent and improving productivity.
- **Cybersecurity:** Comprehensive managed security services, threat detection, identity protection, and compliance management to ensure your data remains sovereign and secure.
- **Modern Apps:** Agile application development creating meaningful and impactful tools that link to tangible benefits, improvements and cost savings.

Our Approach: Consulting, Lifecycle, & Managed Services

We deliver value at every stage of your technology journey, ensuring accountability from strategy to support:

- **Consulting (Architecting the Future):** We bridge internal skills gaps with data-driven strategy. From "Discover & Design" to full-scale migration planning, we ensure your investments solve real public sector challenges.
- **Lifecycle (Seamless Execution):** We take the risk out of procurement and deployment. Leveraging global buying power, we handle everything from supply chain management and imaging and implementation to sustainable asset disposal (ITAD).
- **Managed Services (Always-On Support):** Shift from "keeping the lights on" to innovation. We provide 24/7 infrastructure monitoring, cloud cost optimisation (FinOps), and security operations to ensure resilience.

3. Services

Service Name

Intelligent Storage Tiering Optimisation Service

Service Description

Expert consulting for mid-large enterprises seeking to maximise storage performance and cost-efficiency through automated storage tiering solutions.

Features

- Comprehensive assessment of existing storage infrastructure and data usage patterns
- Design and deployment of automated tiering policies tailored to business needs
- Integration of storage management platforms with existing IT environments
- Automated data migration across storage tiers based on real-time analytics
- Policy-based automation for balancing performance, capacity, and cost
- Continuous monitoring and reporting on storage utilisation and tier effectiveness
- Performance tuning for mission-critical applications and workloads
- Automated anomaly detection for data access or storage capacity spikes
- End-to-end security and compliance validation for tiered storage environments
- Ongoing optimisation recommendations supported by quarterly review sessions

Benefits

- Significantly lowers storage costs by aligning data value with storage performance
- Improves application response times with dynamic workload placement
- Reduces manual administration through intelligent automation
- Enhances business agility with scalable, policy-driven storage operations
- Mitigates risk of unplanned downtime via proactive monitoring and adjustments
- Supports regulatory compliance with robust data movement controls
- Accelerates time-to-value for digital transformation initiatives
- Futureproofs storage investments via adaptable, modular frameworks
- Improves forecasting and budgeting through detailed usage analytics
- Frees up IT resources to focus on innovation and core strategies

Constraints

Requires compatible automated tiering-capable storage arrays and admin credentials.
